In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]

On January 13th, 2019, ROBLOX implemented broader anti-fraud features called "Secure Trading." The system is designed to prevent fraud such as fake accounts/bots, selling stolen virtual currency and more. It is also designed to allow users to trade in a safer environment. [28]

On August 21st 2018, ROBLOX removed the ability to sell hats and shirts on their site. This came after a report that showed a lot of users were scamming each other out of money. The system was redesigned and the hats cannot be re-sold.[45][46]

On February 23, 2012, ROBLOX revealed that they had hired 241 developers to work for the company. On March 28, 2013, ROBLOX revealed that they had hired an additional 130 developers to work for the company. On September 3, 2014, ROBLOX announced that they had hired over 800 employees in total.ROBLOX held a previously-unannounced hiring day on June 23, 2012 where they hired over 50 employees. At the end of 2012, ROBLOX announced that the company was "growing faster than ever". In November 2011, the website oDesk.com had more than 100 "top experts" from ROBLOX who were ready to provide assistance and tips to anyone who needed them. The site has since been shut down due to their repetitive scamming of people on oDesk.com using ROBLox as a platform for money making. On March 28, 2013, ROBLOX announced that they had created a new partnership with GameSys on top of their cooperation with Hintons Online Group Inc.

The chart below contains the top 5 accounts with the most amount of plays on ROBLOX in that year (as of December 31st). This chart is directly taken from ROBLOX's blog post for each respective year. ROBLOX games have made the news many times in the past. Below is a short list of some of them.Prior to 2011-2012, ROBLOX game developers were responsible for any known instances of hacking that happened in ROBLOX. There were also older instances where hackers had not yet discovered the community, but eventually did so, and started making exploits on their games that were very popular (such as "Hacker Escape"). Hackers also used an exploit to gain access to admin privileges on a game called The War Factory, which had over 500,000 concurrent players at once. When this was discovered, the hacker was immediately taken down by ROBLOX's staff.
